

EE Department Seminars

February 26, 2010, Friday, 3 p.m.
Yorgo I Stefanopulos Meeting Lounge (KB 217)

Technological Developments in Broadcasting Sector

Taha Yücel, MScEE, MBA
Member of Radio and Television Supreme Council - RTÜK

There is a rapid change in broadcasting technologies and consumers are affected from these changes. DTV, HDTV, Mobile TV, IPTV, HD Radio and 3D TV are the most popular topics in broadcast environment. The seminar will be covering these technologies and applications in Turkey.

Taha Yücel was born in Istanbul in 1971. He graduated from the Electrical and Electronics Engineering Department at Bilkent University in 1993. He acquired his M.Sc. Degree from the Electrical and Electronics Engineering Department at Bosphorus University by his thesis on the digital terrestrial broadcasting planning. He also acquired M.B.A. Degree from the Business Administration Department at Başkent University. He worked in RTÜK as a Technical Inspection Expert until 1998. He worked in the Frequency Planning and Allocation Commissions and in the Commission of the Preparation of Radio, Television Standards. He worked in "TGRT", a private broadcasting company as the Deputy General Director responsible for the technical issues between 1998 and 2005. He was also the Chairman of the Technical Commission of the Association of Television Broadcasters. Taha Yücel is elected as member of RTÜK by the Turkish Grand National Assembly (TBMM) in 2005.
